

## Your client just lost their building!

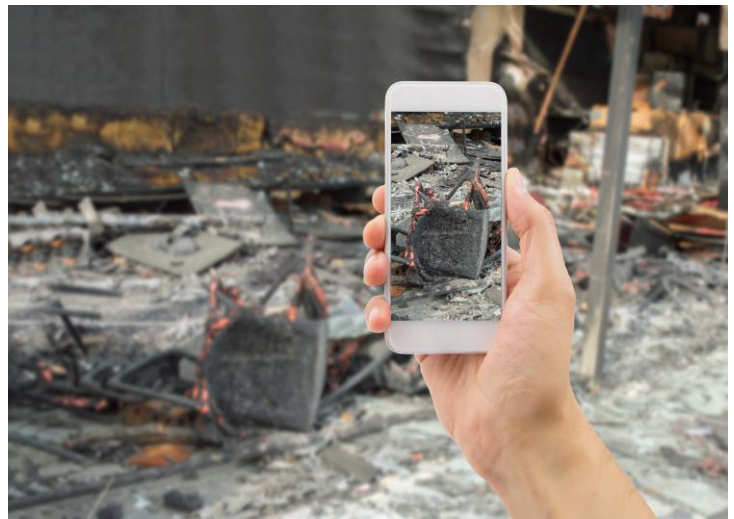

- How will they communicate with customers?
- How will they generate revenue?

Many companies have not considered the impact to their business if their communications systems were down for 1 or more days following a disaster such as a fire, hurricane or earthquake. Recovery time to restore even partial service will take days, if not weeks.

### ICON’s Rapid Communications Deployment Services

ICON Cloud’s Rapid Communications Deployment Service can have critical communications functions operational within hours, as opposed to weeks or months, following a disaster. This includes:

- Telephone system services hosted in ICON’s secured data center
- Alcatel-Lucent IP phones
- Number forwarding service
- Auto-attendant & voice mail

### Maintain Communications & Generate Revenue in the Wake of Disaster

Down time can be measured in lost phone calls, lost emails, lost orders and lost revenue. For a medium-sized business, this revenue loss could be tens of thousands of dollars per day. Not to mention the stress it can lead

to with your most critical customer and supplier relationships.

Is your business prepared for the unexpected? If not, ICON Cloud specializes in helping companies avoid the crippling effects a disaster has on business operations.
