

## FREE RAINBOW COLLABORATION NOW AVAILABLE FOR ICON CLOUD CUSTOMERS

**January 20, 2017, Coppell, TX** – ICON Cloud Solutions is pleased to announce the availability of Alcatel-Lucent Rainbow Essential - a hosted collaboration platform.

Rainbow Essential is a freemium UCaaS offer (free Unified Communications as a Service ) developed and hosted by Alcatel-Lucent Enterprise. Capabilities included are contact management, presence, instant messaging, audio/video calling, screen sharing, and file sharing. It operates via an app on desktops and smart-phones and is available free of charge to anyone by registering at [www.openrainbow.com](http://www.openrainbow.com).

***Rainbow Essential  
Desktop and  
Mobile Apps***

Planned for Q2 is the launch of Rainbow Premium. The premium option will provide additional services such as multi-party conferencing, directory integration, and additional PBX integration services to the ICON Cloud hosted communications platform. With this integration, ICON Cloud customers will have the option for additional services including call control and desk phone dialing from the Rainbow application.

**About ICON Cloud Solutions:** ICON Cloud Solutions specializes in deploying hosted voice, unified communications and collaboration solutions. With extensive experience designing and developing collaboration, video and mobility technology, we offer a flexible solution for enterprises looking to make the move to the cloud.
